Military Officers’ Ranks and Grades

The Career Compensation Act of 1949 established uniform pay grades for officers and enlisted personnel in all military services.

- This law requires that the pay in a given grade must be the same, regardless of service.
- By and large, ranks and grades in the U.S. Military services are direct descendants from the British structure.

All commissioned officers hold Presidential commissions and are confirmed by the Senate.

- Ten grades of Commissioned Officers (O-1 through O-10).
- Five grades of Warrant Officers (W-1 through W-5); the USCG uses only W-2, W-3, and W-4.
Overview of the Officer Corps

In the Coast Guard, Commissioned Officers in grades O-1 through O-10 are referred to as Unrestricted Line Officers.

- While Line Officers develop specific career paths, they are considered generalists, serving as leaders in many fields.

- Warrant Officers apply their enlisted training, and are considered specialists.

- Grade – The position of an officer within the officer corps; in the Coast Guard, the grades are divided into four categories.
  
  - Warrant Offices
  - Junior Officers
  - Senior Officers
  - Flag Officers

Officer Cap Devices

BIC 6.4 - Which of the cap devices shown is worn by active duty and reserve Coast Guard Officers?

- The large device is worn on the combination cover, while the small device is worn on the garrison cover.
Determining Seniority

Warrant Officers

- Pictographic insignia worn on the left color of the shirt, and on the SDB sleeves indicates technical specialty.

- Warrant Officer sleeves and shoulder board stripes have blue breaks over the gold. The “Five Minus Blue Rule” of determining seniority is such that when you subtract the # of blue breaks from the #5; the result equals the grade.

Line Officers

- The more stripes on the sleeve or shoulder, the more senior the officer is.

- If the officer rank device is similar, silver will always outrank gold (for single bars and oak leaves).
Whose Senior?

BIC 6.5 - Which of the insignia shown is more senior compared to the others?
## Comparative Officer Ranks

Ranks are different among the uniformed services:

- **Naval (USCG, USN),**
  - USPHS and NOAA officers as well;
- **Armed (USA, USAF, USMC).**

**Grade remains the same across all services.**

### Insignia:

- USCG and USN use shoulder and sleeve stripes and metal insignia;
- USA, USAF, and USMC only use metal devices;

Active duty (and reserve) officers are military personnel holding command authority in the form of commissions granted by the President of the United States. Auxiliary officers are organizational and functional leaders, but are elected or appointed to their positions, not commissioned at a military rank, and consequently do not hold military-style command authority.

WHAT IS THE DIFFERENCE BETWEEN AUXILIARY AND ACTIVE DUTY OFFICERS?
Coast Guard Auxiliary Officers

Auxiliary Officers hold office, perform duties, and wear military style officer insignia, but they do not hold commissioned military rank.

- Auxiliarists wear the insignia of the highest office held.
- Auxiliarists are promoted when there is an opening at a higher level to which they are either elected or appointed.
  
  • Staff Officers are appointed by a unit leader to perform the unit’s staff duties or lead a staff program area.
  
  • Elected Officers are selected by their peers, and are the unit commanders of Flotillas, Divisions, Sectors, Districts, and the Auxiliary nation-wide.

- Auxiliary leadership relies heavily on the ability of the leader to motivate and find consensus more so than it does on “rank”.
